

## **MULTI-CROP HARVESTER**

**2530**

**2530**

Oxbo introduces the next generation in Oxbo harvesters. A John Deere ST5 engine powers the new Oxbo 2530, multi-crop harvester. It's predecessor models had a global reach spanning 6 continents and the 2530 builds upon those capabilities. The 2530 is the most trusted harvester in the world due to a fundamentally sound design, serviceability, reliability and heritage.

### **PERFORMANCE WHEN IT COUNTS**

- Four-wheel mechanical drive chassis
- Dump box constructed of heavy-duty steel frame sections with optional conveyor to meter product discharge
- Infinitely variable hydrostatic drive motor mated to mechanical transmission for precise speed control

### **MULTI-HARVESTING CAPABILITIES**

- Ideal for dedicated single-crop or multi-crop growers
- Can effectively harvest green beans, sugar snap peas, sweet corn, seed corn and other green crops
- Stalk ejectors available for corn applications

### **PRODUCTIVITY**

- Advanced monitoring and diagnostics system
- Ergonomic joystick puts all functions at operator's fingertips and user-friendly controls easily adjust to optimize yields
- Rapid unload at any height
- Narrow design for easy trailer transport with minimal regulatory restrictions
- Industry standard for green bean cleaning and recovery with efficient airflow design
- Easy access DEF filling space

The new Oxbo 2530 continues to carry the features you know and trust, with new technology options and an updated engine, controls and monitoring.

The 2530 may be compact, but this flexible and powerful harvester can easily adapt to a variety of crops and field conditions.

# 2530 FEATURES

## MULTIPLE HEAD OPTIONS

The Oxbo 2530 has the flexibility to utilize multiple harvesting heads to suite your crop.

The 2530 pairs with Oxbo VPC heads for green beans and specialty crops, the Oxbo CP400 for fresh market sweet corn, Oxbo 60 series and 3000 series heads for processing sweet corn and seed corn and the POG SP heads for spinach and greens.

## EASY ACCESS LADDER

New design for operating mode. Simply flip locking lever up and pull ladder out of the way.

## DUAL CLEANING FANS

Powerful fans are easily set from within the cab for the cleanest loads

## COMFORTABLE CAB

Climate controlled operator station with integrated controls provides outstanding visibility

## ARTICULATING CHASSIS

Rear wheels track with front wheels for easier, more responsive steering for sharp turns and handling rough field conditions
