

## MULTI-FUNCTION VINEYARD SPRAYER

**640**

Oxbo is proud to announce the addition of the new Oxbo 640 Multi-Row sprayer, for use with the Oxbo 6030. With the ability to install or remove from the power unit in under 30 minutes, the 640 delivers new technology and efficiency to the vineyard.

The Oxbo 640 features either a 600-gallon or **900-gallon product tank** and a 50 gallon rinse tank and each row is controlled by an independent fan for more control over product application.

Contact your local Oxbo dealer for more information or visit **OXBO.COM**

- ✓ Fully integrated, **easy to use controls**
- ✓ **Independent row unit control**
- ✓ **Quickly adjustable** for 6-10' rows
- ✓ **Onboard chemical eductor** for easy filling
- ✓ **Excellent visibility** from center mounted cab

**MORE FEATURES & HIGHLIGHTS** ►

## **AG LEADER TECHNOLOGY**

You choose how you want to spray. The Oxbo 6030 is available with the Ag Leader system for integrated mapping and variable rate application. Or, spray with simple pressure and flow settings.

## **OUTER BOOM LIFT**

Outer booms are designed to lift over 9-feet to clear rows or fencing; coupled with the tight turning of the 6030 power unit, the 640 spends less time turning and maneuvering on end rows.

## **PRODUCT DELIVERY**

Customizable to fit various vineyard needs, the 640 sprayer attachment utilizes proven Gearmore Venturi product delivery drops, complete with a breakaway feature to protect nozzles.

## **EASILY ACCESSIBLE**

All fill and rinse valves are easily accessible from the ground, while the upper platform provides easy access to product tank and boom. The Oxbo 640 features a chemical eductor for direct product filling.
