

BEAN HARVESTER

BH100

PIXALL BH100

RELIABLE REPUTATION

For over three decades, fresh market green bean, butter bean and southern pea growers have relied on the effectiveness and efficiency of the Pixall™ by Oxbo, BH100 bean harvester.

The BH100 brings commercial harvesting technology to fresh market growers, helping them gain an edge in a competitive market where finding reliable hand harvesters is becoming more difficult every year.

EASY, RELIABLE OPERATION

- The BH100 can harvest any row width from 18 inches and up
- Beans are gently stripped from the vines by the effective picking head
- The BH100 features a powerful cleaning fan to remove leaves and other field debris
- Gives you the option to bag or box the harvested product on the rear platform

FAST HARVEST, RAPID PAYBACK

- Growers can justify the BH100 on as few as 5 acres
- The BH100 minimizes loss during harvest by cleanly picking each plant, maximizing yield
- With the BH100 and a 40 hp tractor, two people can harvest dozens of cases of clean, high quality beans per hour
- Mechanical harvest with the BH100 eliminates the headache and expense of sourcing hand laborers
- The gentle handling of the BH100 significantly minimizes any damage to your beans
- Fresh market customers appreciate the appearance of beans harvested by the BH100 that rival hand picked beans in every way

PREMIUM PRODUCT QUALITY

Gentle, efficient handling minimizes crop damage resulting in a premium, fresh market quality product.

MULTI-CROP VERSATILITY

The BH100 easily picks green beans, edamame, butter beans, afila peas or southern peas.

CLEANED, SORTED AND GRADED

Add the Vibratory Sorting Table and Even Feeder to complete your fresh market harvest operation.

UNIQUE FEATURES

A The BH100 pull-type design provides gentle harvesting in a one-row tractor drawn model.

B Effective picking reel gently combs the beans from the vines onto a belt conveyor. The BH100 cleanly harvests each plant minimizing loss.

C A powerful suction fan removes leaves and other field debris.

D Cleaned beans are conveyed on a soft rubber conveyor to the rear platform.

E The BH100's rear platform gives you the versatility of picking into bags, boxes, or other containers.
