

NEW FORAGE MERGER

2340

NOT JUST BIGGER; THE NEW OXBO 2340 MERGER

As the leader in forage mergers, Oxbo proudly introduces the largest member to the Oxbo merger family with these customer driven features.

FEATURES

- ✓ Full 40-foot pickup makes hay harvesting operations more efficient
- ✓ High-capacity pickup and conveyor heads create consistent windrows, even in heavy crops
- ✓ Steady feeding of even the largest forage harvesters increasing productivity

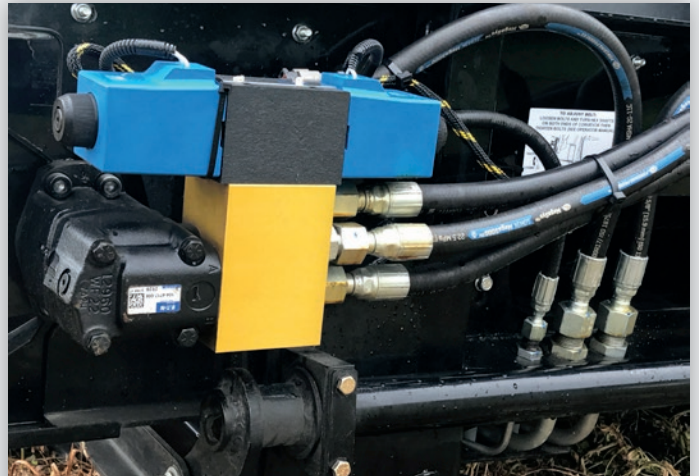

SPECIFICATIONS

- ✓ **40' Pickup Width** (12.19m)
- ✓ **1, 12' (3.66m) and 2, 14' (4.27m) Conveyors**
- ✓ **40" Wide Conveyor Belts** (1.02m)
- ✓ **11' 11" Transport Width** (3.63m)
- ✓ **28' 10" Transport Length** (8.79m)
- ✓ **11' 7" Transport Height** (3.53m)
- ✓ **150 hp Minimum Tractor Size**
- ✓ **Cat III or IV 3-Point Hitch**
- ✓ **2-12 mph Operating Speed** (3-19 km/hr)

OSCILLATING HEADS

- The Oxbow heads pivot in the center allowing 10 degrees +/- of oscillation on uneven ground

TWO CONVEYOR DRIVE MOTORS

- Pulls, never pushes the belt
- Handle heavier crop without stalling
- Reliable high torque, sealed units

MECHANICAL STEERING SYSTEM

- Heavy-duty hubs and spindles
- Standard 480/55R-22.5 tires
- Faster road travel, better handling & faster merging speeds with less field compaction

40" WIDE CONVEYOR BELT

- 5° rear slope evenly distributes crop across full width of belt
- Handles heavy, dense crop
- Delivers consistent windrow
