

# VINEYARD PRUNER

## SPARTAN

### New Spartan Single Row Pruner

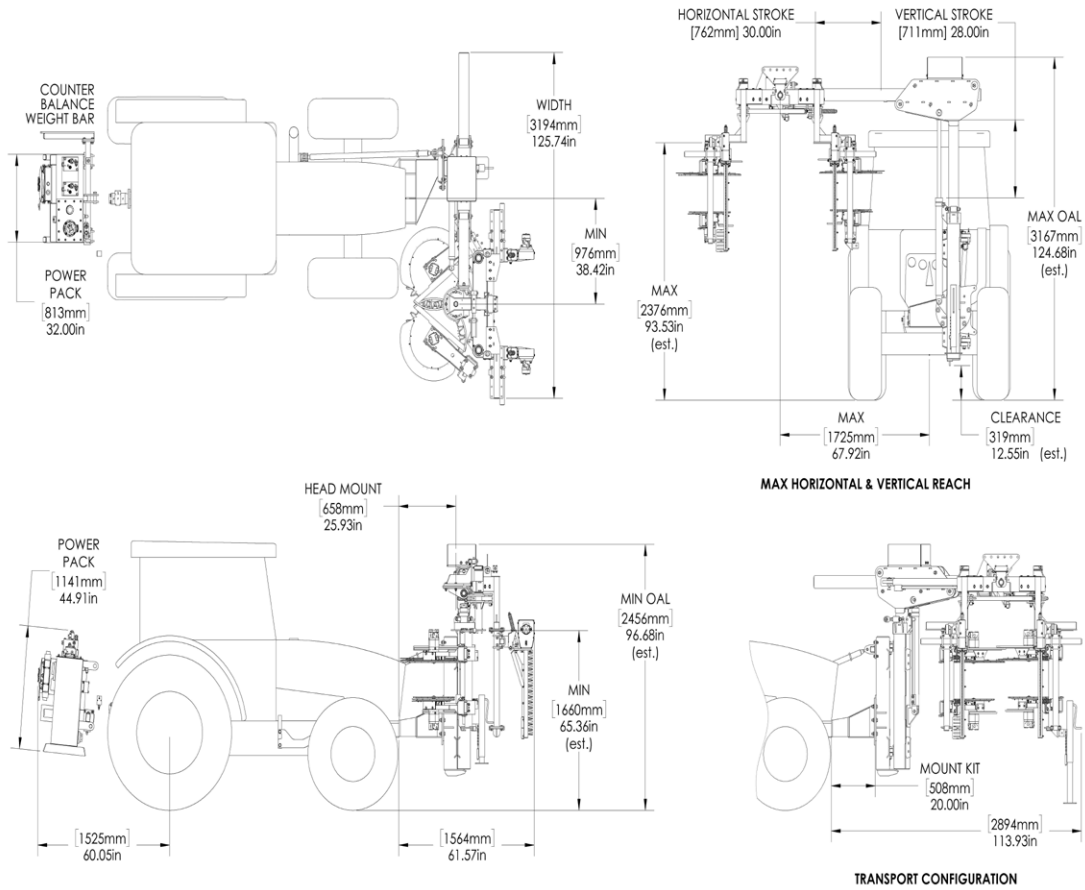

The Spartan single row pruner was designed to provide precision pruning in high wire, quad and VSP.

Capable of pruning up to 3mph, the easy-to-use Spartan reduces labor costs.

Backed by Oxbo's commitment to service and support, the Spartan offers reliable, economical, mechanical pruning performance across a broad range of vineyards.

- ✓ Stow position for easy transport
- ✓ Configure for pruning in high wire, quads, and VSP
- ✓ Low speed, high torque motors deliver precision cut quality and long service life
- ✓ Self-contained hydraulic system
- ✓ Easy-to-use joystick
- ✓ Quick attach
- ✓ Compatible with John Deere M5100 series vineyard tractors (115hp and above)
