

Orbirotor Max Rod Solutions

Replacement Orbirotor rods are now available for the Orbirotor Max head used on the 7450-model berry harvesters. These specially designed Orbirotor picking rods will offer enhanced plant and crop handling while achieving superior performance and reliability.

With a larger diameter and longer length, the Orbirotor Max rod allow for the same selective picking as the standard Orbirotor but specifically designed to accommodate larger plants in the wider 7450 picking tunnel while maintaining the trusted performance you've come to expect from Oxbo genuine replacement parts.
