

New Green Orbirotor Rod Solutions

Replacement Orbirotor rods are now available in green. Made with the same material, the new color was specifically chosen to coincide with the New Oxbo brand. These specially designed Orbirotor picking rods will offer enhanced plant and crop handling while achieving superior performance and reliability.

The new green material offers optimal visibility for color sorting at the pack house, allowing for a cleaner packout while maintaining the trusted performance you've come to expect from Oxbo genuine replacement parts.

See chart below for the correct part number and fitment for your machine.

Part number	Description	Model Number
