

9120-9140 CUP BELT IDLER ENHANCEMENT KIT

The cross shaft installed in the rear beltway of 9120 and 9140 model berry harvesters can build up canes and debris while harvesting in large leafy plants. The addition of corner stiffeners will allow for the removal of the cross shaft, eliminating any build up during harvest.

See chart below for the correct part number and fitment for your machine.

Part number	Description	Qty
PC0003943	CORNER STIFFENER	4
KF5174	3/4 NC x 2-1/2 HEX HEAD CAP SCREW	4
